

SAUDI ARABIA & INTERNATIONAL

Integrated Company

CORPORATE PROFILE

Heavy Machinery Supply, Industrial Trading & Materials Distribution
Solutions

01

Executive Summary

Integrated Company is a premier Saudi corporate delivering top-tier engineering and commercial trading solutions across regional construction, industrial, and energy sectors. We bridge developing markets with leading international manufacturers to provide premium machinery assets, authorized petrochemical compounds, and high-performance lubricants backed by complete logistical coverage.

15+

GLOBAL MARKETS

50+

MACHINERY MODELS

Core Business Pillars

Equipment for Construction & Real Estate

Empowering large-scale infrastructure with premium, heavy construction machinery fleet operations, site distribution, and certified technical support inside the Saudi Kingdom.

Industrial Material Supply

Approved corporate trading and regional distribution of SABIC polymers, agricultural granular urea agri-nutrients, and strategic high-performance engine engineering fluids.

International Commercial Pipelines

Forging global trading bridges and supplying high-performance heavy machinery across rapidly developing African markets inside strategic corporate alliances.

Core Operational Principles

Vision 2030 Support

Active support of Saudi localization targets, local corporate partnerships, and transfer of advanced technical skills to national talent.

Logistical Security

Direct-factory authorized supply corridors and customs pipelines ensuring absolute cargo integrity from production floor to job site.

Asset Reliability

Dedicated preventive maintenance support, direct genuine OEM spare parts supply, and a certified local network of field technicians.

02

Heavy Equipment Operations

We specialize in the strategic supply, distribution, and commercial trading of heavy construction machinery, providing high-end project support to infrastructure developers and real estate contractors across the region.

Motor Grader

High-precision motor graders engineered for absolute leveling, fine road grading, ditching, and slope preparation across complex highway infrastructure.

BLADE: 14FT | POWER: 220 HP

Crawler Dozer

Massive crawler bulldozers engineered to deliver exceptional tractive effort and pushing power for hot desert sand earthmoving and site clearance.

WEIGHT: 49.5 TONS | BLADE: 18.5 M³

Backhoe Loader

Highly versatile multi-use utility loader vehicles combining high-reach backhoe excavation arms with powerful front loader operations.

DIG DEPTH: 5.4M | ENGINE: 105 HP

Heavy Excavator

High-breakout crawler excavators engineered with advanced hydraulics for deep trenching, rock breaking, major bulk excavations, and quarry extraction.

WEIGHT: 36.8 TONS | BUCKET: 2.1 M³

03

Industrial Material Trading

Integrated Company operates as a premier logistics pipeline, serving industrial sectors with authorized distribution of petrochemical materials, chemical fertilizers, and premium lubrication fluids.

STRATEGIC PARTNERS

MANUFACTURING

SABIC Polymers

Authorized distribution of SABIC's high-density polyethylene (HDPE), low-density polyethylene (LDPE), and polypropylene (PP) polymers essential for injection molding and extrusion.

- ✓ High Tensile Strength
- ✓ Chemical Resistance

AGRICULTURE

SABIC Agri-Nutrients

Approved supply of SABIC's high-nitrogen urea and NPK agricultural fertilizers designed to maximize crop yield in global markets.

- ✓ Optimal Soil Enrichment
- ✓ High Nitrogen Content

INDUSTRIAL FLUIDS

PETROLUBE Fluids

Strategic distribution of PETROLUBE heavy-duty automotive engine oils, gear oils, high-performance grease, and hydraulics.

- ✓ Extreme Thermal Stability
- ✓ Wear Protection System

SPECIALTY LUBRICANTS

PETROLUBE Lubricants

Authorized trading of high-performance specialty lubricants and greases, engineered for heavy machinery operating in extreme conditions.

- ✓ Extended Fluid Life
- ✓ OEM Approved Standards

04

Universal Machinery Group

Strategic West African Alliance

Integrated Company holds a strategic shareholding stake inside the Universal Machinery Group. This alliance solidifies our dominance within West Africa's rapid mining, infrastructure, and heavy construction boom. As an authorized distributor, the group offers Doosan (Develon) fleets backed by robust support.

Crawler Excavator

Heavy-duty crawler excavators featuring high-efficiency engines, advanced hydraulic systems, and robust undercarriages built for major mining, deep trenching, and massive infrastructure developments.

Weight	22.5 Tons
Power	162 HP

Wheel Loader

High-productivity wheel loaders designed with spacious ergonomic cabins, heavy-duty axles, auto-differential locks, and optimized bucket capacities for rapid material handling and bulk stock movement.

Capacity	4.5 m³
Power	246 HP

Dump Truck

Articulated off-road haulers featuring active 6x6 drive systems, high-durability high-tensile steel tipping bodies, and advanced transmission systems to deliver maximum payload transportation across rugged terrain.

Payload	28.0 Tons
Power	375 HP
